Cardlock Operating Procedures

- 1) Ensure pump lever is in the “OFF” position before commencing operation. **Your card will not activate the system unless the pump handle is in the “OFF” position.**
- 2) Insert card fully and withdraw.
- 3) Select either “1” to receive a receipt from your previous transaction or “2” to begin fuelling.
- 4) Enter pump number and press “OK”.
- 5) Enter Pass code (formerly PIN) and press “OK”.
- 6) Enter unit number (if required) and press “OK”.
- 7) Enter odometer reading (if required) and press “OK”.
- 8) Remove nozzle and turn pump lever to the “ON” position.
- 9) Squeeze nozzle lever to fill tank.

Satellite Pump Operating Procedures

When main tank is nearly full, release nozzle but leave in tank and ensure main pump switch remains in the “ON” position.

- 10) Lift nozzle on corresponding satellite and turn satellite pump lever to the “ON” position. Satellite pump will not run unless the main switch is in the “ON” position. Please note the main pump and satellite pump will not run simultaneously.
- 11) Squeeze nozzle lever to fill second tank.
- 12) When second tank is full, turn off satellite pump switch and replace nozzle.
- 13) Return to main pump and top up main tank.
- 14) When filling is complete, **you must ensure that the main switch is turned to the “OFF” position and replace nozzle.**
- 15) Insert card fully and withdraw.
- 16) Select “1” to receive your receipt.
- 17) If you are unable to receive a receipt, ensure that the pump is turned off and try again.

Report any operating issues to the pump attendant.

Troubleshooting

- If the cardlock is out of order or the system cannot properly read your card, please follow these instructions:
- Inform the pump attendant of the problem.
- Ask the attendant to try your card or to authorize the pump from inside the station using the cardlock card.
- If there is a problem with your card, contact the credit department at 1-800-661-9166 to order a new card.
- If you are not requested to enter your Pass code or the pump says “Pump in use”, please ensure that the pump is turned to the “OFF” position and try again.
- If you are unable to obtain a receipt, ensure that the pump lever is in the “OFF” position. If a receipt is still unavailable report to pump attendant.
- In extremely cold weather conditions (less than -20 degrees Celsius), if flow rate is unusually slow, release nozzle lever and wait 10-20 seconds. Ensure pump remains in the “ON” position. Resume fuelling and flow rate should continue normally.

Husky Shower Policy

Shower facilities are available at most Husky Travel Centres and many other locations that feature Route Commander cardlock service. Husky’s shower policy is as follows:

- One free shower with a fuel purchase of 200 L or more within the past 24 hours (proof of purchase required).
- All other customers — \$7.00 without a fuel purchase.

Please see the retailer at the site if you require soap or a towel.

Credit Department 1-800-661-9166

Option 1 – To Report Lost or Stolen Cards

Option 2 – Route Commander Account and Card Inquiries

All “Pricing” Inquiries should be directed to your Cardlock Sales Manager

Route Commander – now 95 locations in Canada and growing faster than ever!

Customer Access System

Husky Route Commander gives you personal on-line control of your business on your computer, anywhere.

www.lightoilmarketing.huskyenergy.com

ROUTE COMMANDER A Commanding Lead in Cardlocks

You are User Name of Company Name (Account #) with access level 10

Welcome to the Husky Route Commander Home Page.

This is the new Route Commander web site. We have tried to streamline the process of maintaining your card base. To do this, many of the functions have been redesigned, and therefore may be different than the original functions.

If you look at the top of the page, there is a grey message bar which contains your account information.
